Dear Jeff:

This is to confirm that the Warren County Board of Supervisors, at its regular meeting of February 6, 2007, adopted a policy requesting that the Virginia Department of Transportation consider the use of context sensitive solutions on road projects in Warren County where practical to do so based on a review of the purpose and need of the project, the desires and needs of all stakeholders involved in the project based on comments received during public involvement meetings, design considerations of the project and the impact on the project budget.

Thank you for your assistance in implementing this policy.

Sincerely,

Douglas P. Stanley
County Administrator
